Free shop imprint and salutation on Carlyle Matching Cards. Option #50. For example see page 11/13.

## NEW - Multi Color Self Inking Stamps

*Unlike ordinary self-inking stamps that can print in only one color, our Multi Color stamps let you stamp in several colors at once!*

*The new Multi Color stamps feature a special laser-cut ink pad that allows you to designate colors to various areas of your stamp! The creative possibilities are almost endless!*

### #6025

Imprint size max.  $2 \frac{3}{16} \times 1 \frac{1}{4}$  (56 mm x 33mm). This self-inking stamp makes an impression in multiple colors. Unique laser engraving process cuts and inks the internal ink pad to produce your 2, 3 or 4 color text and logo design. 15 ink colors available to choose from. Minimum space between colors 0.1 (2.5mm.) Custom cut ink pad is built right into the stamp.

### #2194

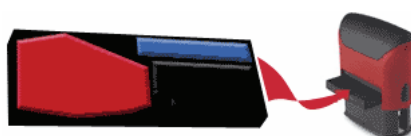

Image size max.  $\frac{3}{4} \times 1 \frac{7}{8}$  (18mm x 47mm) Multi-color self-inking stamp. Just press down to make your mark in 2 or more colors. 15 ink colors available to choose from. Minimum space between colors 0.1 (2.5 mm.) Reliable plastic self-inking mechanism lasts for years. Replaceable ink pad.

### How do they work?

Normal self-inking stamps contain a single ink pad with one color of ink. That ink pad can be changed, but only one color of ink can be used at a time.

Falls can replace the individual Multi Color Impression ink pad and text plate at any time producing exactly the same result.

Email us your text and logo and we will adjust to size to fit the stamps. Once the design has been created, a digital proof will be emailed to you for approval.

A laser beam accurately cuts the specially processed pad material to within a tenth of a millimeter. These precise high tech cuts separate and seal the different color fields.

**Color Fields:** With our multi color stamps, you have lots of text and logo design options. There are only two limitations: There must be a space of at least 0.1" (2.5 mm) between the letters or characters in the different color fields. And the minimum size of any color field must be 0.3" x 0.3" (8 mm x 8 mm).

**Color Selection** 15 ink colors available to choose from. Order by # of color.

# Paneled Sympathy Enclosure Cards #300
